

aquatherm orange system

CONVERSION MANIFOLD

Due to change of supplier, we hereby inform you of the change of the aquatherm orange system manifolds (Art.-No. 92112 – 92122).

The future manifolds are listed by Art.-No. 92302 – 92312. The conversion occurs by and by in the coming months.

Below for further information:

- Delivery of the new manifolds is without ball valves. The ball valves are offered as a set, available in corner (Art.-No. 92321) or straight (Art.-No. 92320) design and must be ordered separately.
- Control components (including actuators), compression fittings and manifold cabinets remain unchanged and are suitable for both designs.
- The heat distribution station with the Art.-No. 92161 is not compatible with the new manifold. There is the fixed value control, Art.-No. 92162, for the new design.
- The spare part list for the new designs is finished and added to the next page.

NEUE DESIGN

without ball valve

Art.-No.	Heating Circuits	PU
92302	2	1 pc
92303	3	1 pc
92304	4	1 pc
92305	5	1 pc
92306	6	1 pc
92307	7	1 pc
92308	8	1 pc
92309	9	1 pc
92310	10	1 pc
92311	11	1 pc
92312	12	1 pc

FORMER DESIGN

with ball valve

Art.-No.	Heating Circuits	PU
92112	2	1 pc
92113	3	1 pc
92114	4	1 pc
92115	5	1 pc
92116	6	1 pc
92117	7	1 pc
92118	8	1 pc
92119	9	1 pc
92120	10	1 pc
92121	11	1 pc
92122	12	1 pc

BALL VALVES
